Betty Trummel

Presider: Ingrid Sundström

STEM is the focus of this presentation about on-going, authentic Antarctic research and the educational outreach that accompanies it. My participation in exciting multidisciplinary and multinational projects in Antarctica has given me the chance to network with students and teachers around the world. Learn how to connect to Polar science.

Let us sing new songs!

Ingrid Christiansen, Kirsten Sødal

Presider: Astrid Bie Skaaland

It is my hope that at the conference in Borås, many will make use of the chance to learn our new song. As women teachers, we are deeply concerned about the situation of girls and women in many parts of the world. These aspects are reflected in our new song. The song also confirms the idea that standing together is a blessing to the causes we fight for, and thereby also a blessing to the DKG society and its members. You need not be a singer or musician to take part in the workshop.
